HOUSE OF MALTS

House of Malts came from a love for honest drinks, good music, and evenings that just feel easy. Over time, it became that familiar place where Friendships start, celebrations unfold, and regular nights somehow turn special. From carefully poured malts to live stages that match every mood, it has always been about people coming together. Seven years later, nothing about the idea has changed walk in, find your corner, and let the night become what it wants to be.
